

Mrs. Anita London

Upon her graduation from the University of Iowa with a Bachelors of Science in Elementary Education and becoming an Illinois certified teacher, Anita London began her teaching career at Schaumburg School District 54. Soon after, she started teaching at Yeshivas Tiferes Tzvi where she has taught 4th grade for the past 16 years. Two years later, Anita joined the middle school staff at Hillel Torah.

While at Yeshivas Tiferes Tzvi, Anita has been an integral part of developing and growing the math and writing curricula. She has helped the administration create objectives aligned with common core standards, as well as assist teachers in reformulating their own expectations to align with these standards. With this new focus, administration and teachers have been raising expectations and quality of work produced by the students. As Anita believes in regular communication with parents, a weekly parent email details skills and activities being done in the classroom.

At Hillel Torah, Anita has been an active member of the math, science, and English departments. Anita has taken a lead role in researching and implementing the new middle school conceptual math curriculum. She uses project-based learning and differentiation to ensure that all students see the value in their math studies. In science, Anita has played a key part in planning and designing the new primary STEM lab and Makerspace where she incorporates these teaching philosophies. Her science room is a place of hands-on discovery and positive experimentation. In language arts, while using common core standards in reading and writing, Anita helped adapt the current curriculum to infuse non-fiction works into a literature-rich environment.

Anita became a teacher with the goal of showing her students that each and every one of them can be successful. She is willing to go to great lengths to inspire her students and push them to reach their greatest potential.

Anita's family is the center of her life. Anita and her ever-supportive husband Michael are proud parents of four amazing children: Baya (13), Avi (10), Benny (8), and Gaby (6).
